YOU COULD SAVE EVEN MORE MONEY IN YOUR **HOME** WITH REBATES

FROM APPALACHIAN POWER!

You made the first step towards energy savings, but you could save even more energy and money with additional energy efficient upgrades such as attic insulation, mini-split heat pumps, and air sealing.

Visit: TakeChargeVA.com | Call: 833-402-2221 | Email: TakeChargeSavings@trccompanies.com

Appalachian Power's Home Performance Program helps assess your home for opportunities to improve energy efficiency. Once you schedule a **NO COST** Home Energy Assessment (HEA), one of our Energy Advisors will examine your home, install energy savings measures and provide a Home Energy Assessment Report. Visit **TakeChargeVA.com** to schedule your HEA, today!

LIGHTING

- LED lighting
- Decorative nightlights

WATER HEATER

- Water heater thermostat setback
- Pipe insulation
- Water heater tank wrap

WATER

- Faucet aerators
- Low flow shower heads

SEALING

- Duct installation
- Duct sealing

The home energy report will give you energy savings tips and outline additional measures for your consideration to save even more energy and money! Only homes heated with electricity qualify for rebate measures, and any upgrades have to be completed by a participating contractor.

You've **COMPLETED** your Home Energy Assessment (HEA)! That's great! You're well on your way to energy savings in your home. But did you know that you could save even more energy and money with additional upgrades?

Visit **TakeChargeVA.com** to find a qualified contractor and view the full list of Home Performance Rebates! Then you can save even more money!

You must use our contractor network to install rebate-eligible improvements. Also, your home must be heated with electricity to qualify. Some measures eligible for **REBATES** include:

AIR SEALING

MINI-SPLIT
HEAT PUMPS

ATTIC INSULATION

Review our website for additional upgrades eligible for rebates through Appalachian Power.
