

## Home Performance Program

## **INCENTIVES**

Appalachian Power's Home Performance Program assesses your home for energy-saving opportunities. A Home Performance Energy Advisor will visit your home, install energy saving measures, and provide a Home Energy Assessment Report for free!

Additional energy saving measures installed by approved contractors in our network are also eligible for incentives. Incentives are available for various projects, including:

**DUCT SEALING** 

**INSULATION** 

**HVAC** 

**Get started today!** 

Screw-in Directional <sup>1</sup>	LED R20 Short (450-750 lumens)	\$7 each
Screw-in Decorative <sup>1</sup>	LED Decorative (Shapes B, BA, C, CA, DC, F, G, any base <310 lumens)	\$3 each
Nightlight <sup>1</sup>	LED Nightlight	\$3 each
Direct Install Hot Water	Description	Incentive
Aerator <sup>2</sup>	1.5 GPM Kitchen Faucet Aerator (Electric Water Heating only)	\$8 each
	1.5 GPM Bathroom Faucet Aerator (Electric Water Heating only)	\$8 each
Low Flow Showerhead <sup>2</sup>	2 GPM Low Flow Showerhead (Electric Water Heating only)	\$15 each
	2 GPM Low Flow Showerhead w/Thermostatic Shower Valve (Electric Water Heating only)	\$50 each
Hot Water Heater Thermostat Setback	Electric Hot Water Heater Thermostat Setback	\$5 each
Direct Install nsulation	Description	Incentive
DHW Pipe Insulation	R-3 Insulation of 1/2 thickness on 3/4" DHW Pipe (Electric Water Heating only)	\$3 linear foot
	R-3 Insulation of 1/2 thickness on 1/2" DHW Pipe (Electric Water Heating only)	\$3 linear foot
Hot Water Tank Wrap <sup>3</sup>	30 Gallon Domestic Hot Water Tank Wrap (Electric Water Heating only)	\$35 each
	40 Gallon Domestic Hot Water Tank Wrap (Electric Water Heating only)	\$35 each
	60 Gallon Domestic Hot Water Tank Wrap (Electric Water Heating only)  80 Gallon Domestic Hot Water Tank Wrap (Electric Water Heating only)	\$35 each \$35 each
Caulked Penetration <sup>4</sup>	Caulked Penetration	\$10 penetration
Weather Stripping, Caulking and Sealing⁴	Weather Stripping, Caulking and Sealing	\$2 10 linear feet
Outlet Gasket⁴	Outlet Gasket	\$5 gasket
Ouct Insulation (R-6) of Sealed Ducts <sup>4,5</sup>	Duct Insulation (R-6) of Sealed Ducts	\$10 square foot
Air Handler Filter and Filter Whistle <sup>4</sup>	Air Handler Filter and Filter Whistle	\$8 each
Duct Sealing <sup>4,5</sup>	Duct Sealing	\$150 home
HVAC	Description	Incentive
Ductless Mini-Split <sup>6</sup>	Ductless Mini-Split Heat Pump: Replacing ASHP or GSHP/AC	\$267 each
	Ductless Mini-Split Heat Pump: Replacing Electric Resistance Heat/AC	\$267 each
nsulation	Description	Incentive
Attic Insulation <sup>7</sup>	Attic Insulation: AC, Electric Resistance Heat	\$550 per 1,000
	Attic Insulation: AC, Heat Pump	\$125 per 1,000 s
	Attic Insulation: no AC, Electric Resistance Heat	\$450 per 1,000
	Attic Insulation: no AC, Heat Pump	\$100 per 1,000
Air Sealing <sup>4,8</sup>	Air Sealing: AC and Electric Heat	\$350 per home
	Air Sealing: no AC and Electric Heat	\$350 per home

**Incentive** 

- 1 All lighting measures must be DLC or ENERGY STAR® certified and must replace an incandescent bulb with equivalent lumens.
- 2 Aerators and showerheads must be WaterSense certified.
- 3 Existing water heater tank insulation must have an R value <24 or water heater must feel warm to the touch. Tank wrap must have a value of R-10.
- 4 Homes must be heated with electric heat to qualify.

Lighting

Description

- 5 All accessible duct joints, seams, connections, and penetrations must be sealed with duct mastic, spray foam, or UL-181 tape on joints.
- 6 Fuel switching is not permitted. Ductless Mini-splits must be new and ENERGY STAR® certified.
- $7\ \mbox{Attic}$  insulation must increase by at least R-20 and meet the R-38 building code.
- 8 Blower door test required for whole home air sealing with a 20 percent reduction. Contractors should target the highest sources of air leakage first, such as major penetrations in the attic, basement, or crawl space.
