

# Are you ready to make energy efficient upgrades?

You may be eligible for incentives on energy efficiency upgrades highlighted in your report. For more information on our incentives and how to apply, you can access our website by scanning the QR codes or clicking the links below.

## Incentives

Learn more about our current incentive offerings and minimum efficiency requirements. [energyright.com/business-industry/incentives](https://energyright.com/business-industry/incentives)

Ready to start? Work with a member of the Preferred Partners Network (PPN). The PPN is a group of trade allies specializing in energy efficiency projects who are available to facilitate your incentive application.

## Find a Contractor (FAC)

Access our online directory of trusted PPN members. Select a single PPN to get started. [energyright.com/business-industry/find-a-contractor](https://energyright.com/business-industry/find-a-contractor)

## Request Expert Solutions (RES)

Submit a brief project description to request a response from multiple PPN members who can address your specific needs. [energyright.com/business-industry/request-expert-solutions](https://energyright.com/business-industry/request-expert-solutions)

Once you have determined the perfect PPN member, the next steps are as easy as 1, 2, 3.

### Select your PPN member

Contact a PPN member by using the RES or FAC tool.

### Work with your PPN member

Define scope of work and complete application.

### Sign application

Your PPN member will provide an application for you to sign.

## Estimated savings of potential upgrades

Technology Potential	Energy Savings (kWh)	Bill Savings

Eligibility, rules and technology requirements apply. For help to get started or additional assistance, please call (866) 233-0450.
