Standard Incentives

Evergy offers a wide range of incentives designed to help our Missouri business customers achieve energy savings by reducing the upfront cost of installations. Our Standard Incentives provide savings for energy-efficient equipment upgrades on a one-for-one basis, making it quick and easy to save money and energy. For projects with an anticipated incentive amount of $15,000 or less, simply apply after equipment purchase and installation to receive a fast incentive check. For projects expecting an incentive greater than $15,000, pre-approval must be obtained before equipment purchase. Projects completed after December 31, 2024 are subject to 2025 incentive amounts.

Custom Incentives

Don't see your upgrade on the Standard Incentives list? If it saves energy, chances are it will qualify for a Custom Incentive. Evergy Custom Incentives are paid on a per-kilowatt-hour-reduced rate, and provide a greater range of potential savings opportunities compared with our Standard Incentives. Pre-approval is required, submit application before purchasing or installing equipment in order to be eligible to receive an incentive. Projects completed after December 31, 2024 without pre-approval are subject to 2025 incentive amounts.
