TVA EnergyRight® and are excited to announce energy efficiency incentives that can improve patient experience AND lower energy costs.

[Questions? Contact us.](#)

Improve indoor air quality with HVAC upgrades.

Air quality and HVAC systems can have a big impact on patient experience.¹ And we have some great news for your patients: We're offering \$80/ton or \$175/ton incentives for energy efficient replacements (depending on efficiency); \$175/ton for energy efficient expansions and new installations; and \$250/ton toward the purchase of qualified variable refrigerant flow (VRF) and dual fuel heat pumps.

Big flexibility for big energy efficiency projects.

Our custom incentives give healthcare facilities the flexibility to make energy improvements that are unique to specific operational needs.

What a bright idea.

Our indoor and outdoor [LED lighting incentives](#) can dramatically lower costs², boost productivity and improve safety. Making the switch to LED lighting makes more sense than ever with our incentives:

- \$0.08/kWh for indoor lighting.
- \$0.04/kWh for exterior and street lighting.

Powerful savings at Memphis medical facility.

Energy savings:
513,007 kWh

Project incentive:
\$20,520

Annual savings:
\$51,301

Simple payback:
4.72 years

Thanks to indoor lighting incentives from TVA EnergyRight and MLGW, patients and staff at an award-winning medical facility are benefitting from better light distribution and safer conditions.

But wait, there's more!

We're on a mission to serve you. Did you know that TVA EnergyRight and your local power company offer specialized energy efficiency programs that can help your business save even more on energy costs?
