

# Fast Track Lighting

No pre-approval.  
No PPEC needed.  
No baseline required.

For the first time, the TVA EnergyRight for Business & Industry Program has an incentive offer similar to a rebate.

## What is Fast Track Lighting?

Fast Track Lighting is a new additional method to access lighting incentives with a quicker and simpler streamlined process.

## What's the new incentive offer?

The rebate is a **flat rate offer of \$4.00 for each 4' linear T8 LED tube** installed. Plus, you can submit the application up to 6 months following the installation.

## How is Fast Track Lighting different than Standard Lighting incentives?

- No pre-approval required - ideal for projects with short deadlines.
- No PPEC required - application process made simpler.
- Each 4' linear T8 LED tube installed receives a flat rate incentive of \$4.00 per tube.
- Type A, B and C tubes eligible.
- Past projects eligible - apply up to 6 months after installation.

**Please Note:** Projects with multiple fixture types remain eligible through the Standard Lighting incentive process utilizing the PPEC to calculate the amount of energy saved and the incentive at the rate of \$0.10/kWh

## How do I apply for rebates?

**Step 1:** Identify projects that you have invoiced or installed within the past six months.

**Step 2:** Login to your PPN account to start applying for rebates today.

[PPN Account Login](#)

Four simple fields to complete. It will automatically calculate incentive based on the lamp quantity (LED tubes) installed.

The screenshot shows a web form titled "Fast Track Lighting" with the following fields and values:

- Measure Type:** Fast Track Lighting
- Note:** In order to process your application, the program requires the following documentation to be uploaded with the application:
  - Specification Sheets (including model numbers)
- Lamp Quantity:** 40
- Estimated Incentive:** \$160.00
- \*Total Estimated Material Cost:** \$1,000.00
- \*Select the date the project was installed:** 2024-08-22
- \*Cannot exceed 180 days prior to application date:** (indicated by a red asterisk)
- \*Please provide a brief description of the project and scope of work:** Warehouse 30, Office 10

Buttons for "BACK" and "FINISH" are visible at the bottom of the form.

## Earn a \$100 Amazon e-Gift Card

Until **September 30, 2024**, or while supplies last, submit a project for a Fast Track Lighting incentive, with a minimum of 40 tubes, and **receive a \$100 Amazon e-Gift card** when the customer signs the application.

**Limited to five cards** for each PPN member including past offerings.

## Don't know where to start?
