

Helping schools lower energy costs, improve the learning environment and achieve energy goals.

School Uplift

Now accepting participants for the 2025-2026 school year.

Here at TVA EnergyRight's School Uplift Program, we love sharing free resources with our teachers. Our next cohort of School Uplift begins in May 2025, but we have an additional funding opportunity for you to take advantage of now!

Click the link below to apply for a school TVA STEM Grant (*) of up to \$5,000. Applications are due Sept 15th, 2024.

[Apply for a TVA Stem Grant](#)

And next year, join our cohort of School Uplift for more funding and energy efficiency education!

Questions about this opportunity? Schedule a quick chat with an Energy Coach by clicking the link below.

What is School Uplift?

TVA EnergyRight and your Local Power Company are proud to offer the School Uplift Program to our regional k-12 schools each year.

Each participating school will earn \$10,000-\$200,000 for their school by engaging in energy efficiency education and implementing cultural shifts around daily energy use. Our schools save money on their annual energy bills, engage with their local power company and improve their learning environments!

What schools make the best fit?

- K-12 schools in TVA's region ([click here to view map](#))
- Schools needing various capital improvements in HVAC, lighting or building envelope systems
- Schools desiring enrichment for science, math, leadership, literacy, CTE, STEM or student-led learning
- Districts wishing to better manage energy use and take steps toward greater energy efficiency
- Districts aiming to reduce energy bill costs or offset future energy costs

What to expect as a School Uplift participant.

- One year (May 2025-2026) of energy efficiency programming, building strategic energy management routines in your building
- Monthly guidance by an Energy Coach
- Curriculum enrichment and engagement resources
- Student leadership opportunities (yes, students can carry much of this program!)
- Real-world energy education
- Two funding opportunities: Learning Environment Grant (included with program completion) and Building Energy Upgrade Grant (need-based)

Interested in bringing School Uplift to your school at no cost? Raise your hand, we want to hear from you! We're already recruiting public schools throughout the region for the 2025-26 school year. We hope you'll join us.
