

Increase the ROI of your Continuous Commissioning project with assessment funding from TVA.

Hospitals typically require a project ROI of 2 years or less and to help you achieve this, TVA will pay up to \$100,000 of your hospital's energy assessment costs.

Combined with our Continuous Commissioning incentives, you could make your energy efficiency improvements a reality. Don't miss out on this amazing opportunity to optimize your facility's energy use and receive the best cost savings on your next Continuous Commissioning project.

Offering Details

- TVA will pay 50% of each detailed assessment for Continuous Commissioning hospital projects.
- Limited to \$100,000 for each detailed assessment.
- Offering is effective now through 09/30/2024.
- Final paperwork must be received by 08/31/2024.
- Offering is limited to two hospitals per company.
- Projects receiving this funding are also eligible for TVA's \$0.07/kWh Continuous Commissioning incentive.
- Combined Continuous Commissioning incentive and assessment funding must not exceed 70% of total project costs and are still subject to program company caps.
