

PREFERRED PARTNERS NETWORK

Available HVAC incentives from TVA.

HVAC systems got in quite the workout last summer, but we're here to help!

Check the back for more details on our expanded HVAC incentives that can help reduce upfront project costs on your customer's next HVAC project.

Projects installed in the past 60 days don't require pre-approval.

Energy Efficiency Incentives

\$80/ton – HVAC equipment upgrades such as unitary heat pumps and like-for-like replacement of Variable Refrigerant Flow (VRF) and dual fuel heat pump systems.

\$175/ton – cooling replacements AND/OR facility expansion and new installation with unitary A/C units with Advanced Tier efficiencies.

\$250/ton for VRF and dual fuel heat pumps if project involves new installation or facility expansion OR change out of existing gas heat to VRF and dual fuel heat pumps.
