Incentive Project Highlight

LED Tube Lighting

LED tubes can save you money every year while also reducing your energy consumption. The installation process is simple and does not require any downtime for your business. Additionally, LED tubes provide brighter and longer-lasting illumination for your business, elevating its overall appearance.

There are many advantages to upgrading from fluorescent tubes to LED lighting. Our **TakeChargeVA** Program highlights a project and illustrates several of these benefits.

Fluorescent Tubes

vs.

LED Tubes

1

176 tubes have **40 watts** per tube and use more energy.

176 tubes have **13 watts** per tube and saves **21,390 kWh** annually.

2

Fluorescent tube lights use **20%** more electricity.

176 LED tubes can earn a cash incentive of **\$1,100!**

3

These lights **flicker** when they reach the end of their lifespan.

LED tubes are **durable** and **safer** because they do not contain mercury.
