

NO-COST ENERGY ASSESSMENT

Identify potential **energy-saving** opportunities in your building.

APPALACHIAN POWER
An AEP Company

TAKE CHARGESM

LIGHTING

LED lighting options, from standard lamps and decorative fixtures to high-bay luminaires and exterior lighting

HVAC

HVAC technologies such as packaged units, heat pumps, tune-ups, controls, and smart thermostats

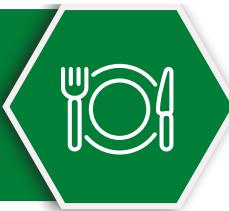

REFRIGERATION

Refrigeration improvements like ECM motors, anti-sweat controls, door gaskets, and case lighting

KITCHEN EQUIPMENT

Food-service equipment including griddles, steamers, ovens, and commercial dishwashers

HOW IT WORKS

A FREE ENERGY ASSESSMENT is the fastest way to discover meaningful savings inside your facility. You get a clear breakdown of where energy is used and which upgrades can deliver the greatest impact.

WHAT TO EXPECT

- ◆ A full facility walkthrough with a member of our field team
- ◆ A review of on-site systems that may be eligible for energy efficiency upgrades
- ◆ Information about cash incentives through TakeChargeVA by Appalachian Power

SCHEDULE NOW

Scan the QR code or visit TakeChargeVA.com for more information and to schedule a **NO-COST Energy Assessment**.
