TAKE CHARGE™

Maximize Your Efficiency: Compressed Air System Incentives For Businesses

The **Appalachian Power Business Energy Solutions Program** provides cash rebates and technical assistance for certain cost-effective energy efficient projects.

The **TakeChargeVA Programs** can assist with your facility's compressed air projects. We provide financial incentives for upgrading to new energy efficient equipment and acting as your trusted energy advisor. We can even help you with the paperwork so you can focus on running your business.

ENERGY SAVINGS FOR COMPRESSED AIR SYSTEMS

Unlock energy savings and cost reductions with energy efficient solutions, and take advantage of Appalachian Power's incentives to boost your business!

Project Completion Timeline:

- 1 Contact Our Team** — Reach out to us to kickstart your project. Our engineers, program team members, and Trade Allies are ready to guide you through every step of the process.
- 2 Choose Installation Method** — You can install the equipment yourself, use a contractor, or work with a Trade Ally. Trade Allies are experts who install energy-efficient upgrades at your facility and assist with paperwork and timelines. Find a Trade Ally at [TakeChargeVA.com](https://www.TakeChargeVA.com).
- 3 Start Your Project** — Once your project is approved, you'll have **90 days to complete**. Need more time? Extension requests are reviewed on a case-by-case basis.
- 4 Submit Final Paperwork** — Send us your final invoice for approval and to process your incentive payment.
- 5 Receive Incentives** — Incentive checks are typically issued within 4-6 weeks after final approval.
